put a charger in your tv like this and you have a super digital antenna

to start the first thing we will do is

and then we cut this part with the help

now we will cut the black cover that

but be very careful not to cut the wires inside
when we have removed it we are
They usually come in two colors but
then we take a coaxial cable or a television
until the silver cover that the cable has
Once this is done, we are going to peel this white part to leave the center cable exposed
Take advantage now and tell me from which
to send you a special greeting in the next video
when finished, that's how it should stay
then we take the charger and wind one of its wires on the copper that we discovered earlier
when we're finished it's just time to connect

As you can see, the television shows perfectly each of the channels that are being tested

Washer ezDispense™ - How to Use the Manual Dispense Function on the ezDispense™ Washer by LG USA
51,472 views 3 years ago 54 seconds - Rather than changing out the detergent in the ezDispense reservoir,
use the **manual**, dispense function for single-use detergents.

When washing certain fabrics such as wool, lingerie, or outerwear, you may want to use a special detergent.
Rather than changing out the detergent in the ezDispense reservoir, use the manual dispense function.

To use the manual dispense function, turn off the ezDispense detergent function.

Pour the detergent in the manual detergent dispenser cup between the two ezDispense reservoirs.

You can use either powdered or liquid HE detergent in the manual detergent dispenser.

Do not use the manual dispenser for single-use detergent packs.

Place single-use detergent packs in the drum with the laundry
